

Session S22 – The Federal Perspective on Information Security Governance

About the Speaker

Mike Nelson

Mike Nelson is president of SecureNet Technologies, a consulting firm that focuses on information systems security assessments based on the federal NIST standards. Mike has over 20 years of experience in the Information Technology arena and has extensive experience in data communications architectures and security - from planning through deployment. He has held positions leading application development and support in both the mainframe and client/server environments. Mike is currently serving as a Chapter Director and is the leader of the Communications Committee. He holds a Bachelors Degree in Communications Studies from California State University and an MBA from the University of Phoenix. He is a graduate of the Duke University Fuqua School of Business Executive Management Program with an emphasis on Telecommunications Management. He is a Certified Information Security Manager (CISM) and a Certified Information Security Auditor (CISA). Mike also belongs to the Information System Security Association (ISSA) and is a Certified Information Systems Security Professional (CISSP).
