| Presentation Title: | Inside the data center – What an auditor needs to know |
| Abstract: | |
| <p>The data center floor is an area of focus in the world of IT Audit. This session will describe the data center floor, explain its functions and how it relates to the IT Audit function. Attendees will learn how to communicate with IT Operations professionals using their vernacular, and how to identify where to target their audit plans and through a mutual understanding of data center issues. The discussion will focus on the physical data center, and associated Operations Centers.</p> | |
| Target Audience: | |
| <p>This introductory level course is appropriate for any individual who wants to: • Develop their IT Vocabulary • Gain an understanding of the “look and feel” of a datacenter floor • Gain an understanding how IT Operations is applicable to IT Audit areas</p> | |
| COBIT Objectives: | |
| <p>PO9, AI6, DSS12, DS13, ME2</p> | |
| Speaker Bio: | |
| <p>Drew is a Director in PricewaterhouseCoopers’ Advisory Financial Services Technology Practice specializing in Payments and leads PwC’s Payments Practice in the West. He brings over 16 years of experience in networks, specializing in product and systems development. He possesses strong knowledge of payment systems including ACH, wire transfer, SWIFT, and payment card. In his work with the firm, he has led numerous payment projects related to risk and regulatory/AML and PCI.</p> <p>Drew was most recently at a financial transaction processing firm, where he was Chief Information Officer and CISO. Prior to this, he managed his own company that provided technology and security consulting services to the financial services industry. Before starting his own company, Drew was also Chief Technology Officer for an Internet payments company. There, he directed technology initiatives that allowed the company to offer B2B electronic payment products to large U.S. national banks.</p> <p>Drew has also served in various roles at a major brokerage and mutual fund complex.</p> | |
