<p>This session will be entertaining for everyone. Basic concepts and advanced techniques will be demonstrated and discussed.</p>	
COBIT Objectives:	
<p>AI3, AI4, AI6 DS3, DS5, DS9, DS10, DS11, DS13 ME1, ME3</p>	
Speaker Bio:	

Rodney Kocot, Systems Control and Security Incorporated and K3DES

Rodney Kocot is a technical IS Audit Consultant for K3DES and Systems Control and Security Incorporated. Rodney provides technical audit training and consulting services for corporations worldwide. He has been an IS Auditor since 1981 with responsibilities that included technical audits of operating systems, network audits, and audit software development.

Rodney often presents at the ISACA CACS and International conferences. He has presented numerous seminars and dinner meetings all over the world for the last 23 years. Seminars presented by Rodney include automation techniques, software, and audit programs. Topics include programming, audit and security automation, auditing minicomputers, and securing minicomputers. He has performed AS/400, LAN, Tandem Guardian, Unisys, Unix and OpenVMS audits using Visual Basic and Microsoft Access to automate the reviews.

Rodney has been working with and programming PCs since 1982 using CPM. He currently programs mostly with Visual Basic, but also knows C++ and other languages. He has been working with Windows since its inception.

Rodney has been involved in the Information Systems Audit and Control Association, and has held various positions in the Los Angeles and San Francisco chapters including President, Executive Vice President, Vice President, and Secretary.
